

The Winds of the World

C

Jesus is with me when the storm clouds gather
He's standing by my side when I hear the thunder roll
He holds my hand when I begin to tremble
When the winds of this world are blowing strong

V

Jesus is a fence around His children
His grace is sufficient to stand the storm
His word is a promise we can stand on
When the winds of this world are blowing strong

V

Satan is moving to and fro throughout the land
Seeking out who he may devour
But he was defeated at Golgotha
That day when Jesus made him out a liar
